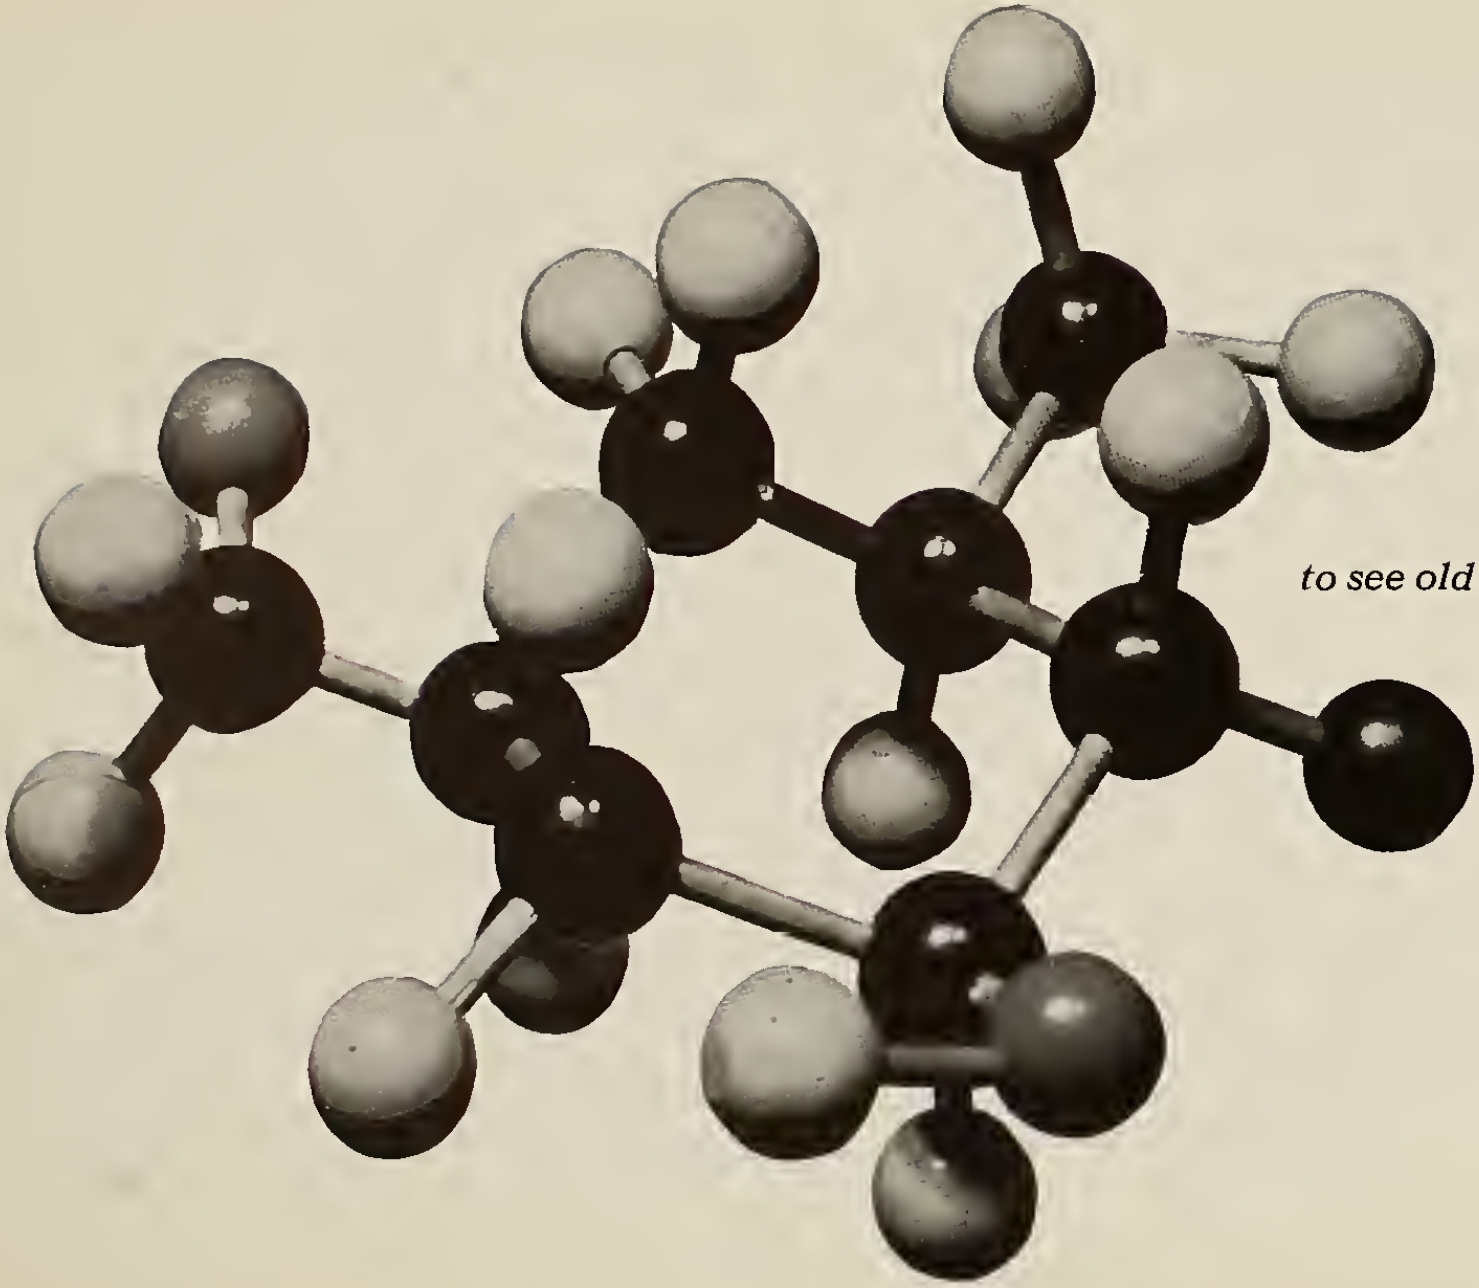
We left the shelter of our youth

where every question could be answered--

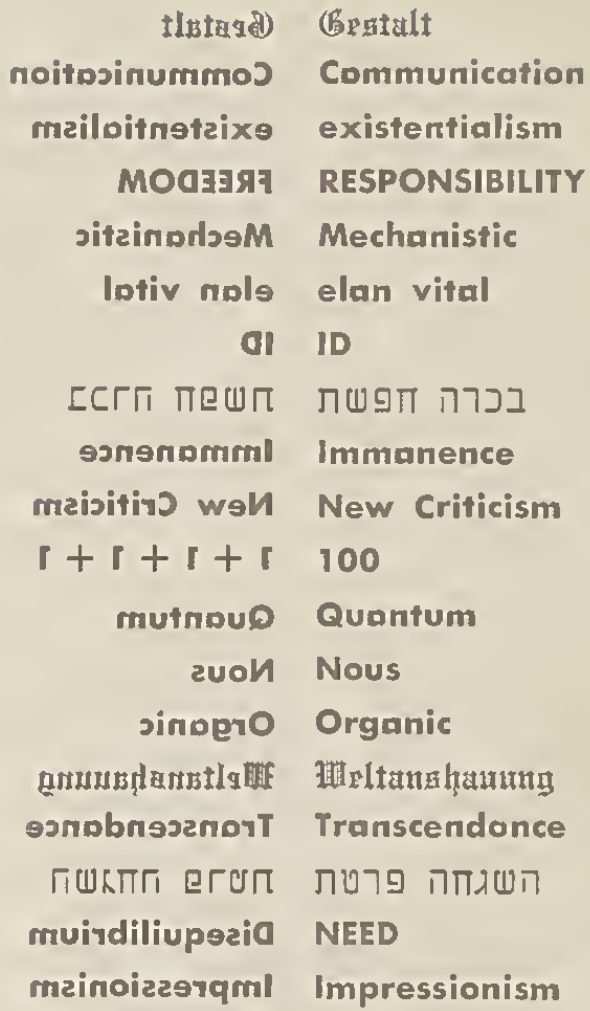
where everything was black and white—

where we were self assured—



to see old words redefined,

absolutes challenged, familiar ideas disturbed by the new.



Yeshiva College

MASMID

into a critical and scientific researcher.

Dr. Samuel Belkin
President, Yeshiva University

As you take leave of Yeshiva College, may I offer you my sincerest best wishes for every success in the years ahead. You have earned the approbation of your teachers and their firm conviction that you will continue to grow in faith and knowledge.

Men, like institutions, must forever develop their resources if they are to withstand the pressures of modern life. For the Jew in America, this means a constant return to those sources of inspiration which have sustained our people through thousands of years. Only through the unceasing study of Torah and the carrying forward of our sacred traditions can we maintain our identity in a world where shifting values indicate a lack of moral purpose. One of our great sages has written, "It is the way of the wise to call themselves students all the days of their life." In the 20th century, this is true as never before.

You are fortunate indeed in having attended Yeshiva College. Here you received an unparalleled foundation for further intellectual and spiritual development. For at no other institution in the country are the rich treasures of Judaism and the arts and sciences of western civilization perpetuated in one program. This unique education invests you with a special responsibility—to carry on the quest for knowledge and the study of Torah for the benefit of unending personal growth. In this way, you best serve G-d and your fellow man. May you be granted the blessings of life, peace, and understanding.

Sincerely yours,
Samuel Belkin, President

YESHIVA COLLEGE ADMINISTRATION

To the Class of 1962:

Your B.A. degree from Yeshiva College not only certifies your successful completion of required courses, but also attests to your having received, in addition, a type of education which by its very nature fosters the highest moral and ethical standards and spiritual growth. Such an education is possible only where the faculty and administration, committed to humane and humanistic values feel duty-bound to act as a catalytic force in our essentially pragmatic social environment. It is heartening that, by and large, you understood and appreciated the faculty's and administration's refusal to function merely as utilitarian tools whereby they would help to fix the minds of the students on objectives immediately before them rather than on ideas and ideals.

I trust, that your Yeshiva education, based on the principle of תורה ומדע will be the beacon that will guide you as you plot your course in life and seek new and creative ways to serve yourselves and your fellow men.

I am confident that you will join the ranks of the ever-growing number of Yeshiva men who are making important contributions in every area of American life and, as Torah-true men, are playing a particularly significant role in shaping the destiny of the American Jewish community. And, I hope that, whether you be far or near, you will always retain your interest in your alma mater and her concerns.

I wish each and every one of you who are graduating with the class of 1962, farewell —in the sense that you may truly fare well.

The college experience?

a four year cycle which deadens

the student with its routine

and repetition—

a passing from book to book—

from idea to idea

uninterrupted, unwavering.

Fact after fact—theory after theory—

a chaotic, incomprehensible melange

of words and symbols . . .

Tension unceasing, evergrowing—

demography—cubism—jewish history

on and on—over and over again—

no time to stop—

not enough time to begin . . .

Our college experience—the frantic attempt to merge secular and religious studies—is ended. Forgotten are the sleepless nights, the worthless teachers, the never-ending flood of readings, papers, tests. For most, the bitterness of the past four years fades and only those moments of intellectual satisfaction, those moments of joy shared in true fellowship remain. With the confidence and assurance developed by critical thought and discerning analysis, the college graduate enters the World.

We live in the age of anxiety—immediate annihilation in a surprise nuclear attack or slow death by radiation poisoning. The newly formed nations in Africa, the restless multitudes in Asia seem to herald the twilight of the white man's domination and his approaching enslavement. Possessed of the power to destroy, uncertain of tomorrow, terrified to think and afraid not to—man lives.

Little Rock—White Citizens Councils—Segregation—the American image is out of focus. The once passive and taciturn Negro, subjected in the South and rejected in the North, has become militant and defiant. Freedom and Equality! The buses burn in Georgia. Schools close in Virginia.

John Birch Society—Major General Edwin Walker—"Eisenhower is definitely pink"—the resurrection of McCarthy. Fear and ignorance conspire to muzzle us. The Minute Men are armed and ready. Invincible against the "Communist Conspiracy"—vulnerable to "the enemy from within."

Industrialization

Automation

Cybernation

Individuality = Specialization

Creativity = Technical Skill

We perceive mankind as a machine, people as parts—uniform interchangeable, undistinguishable.

We are the "thought-tormented" generation. Science has taught us to question and absolutes

seem incongruous in an atmosphere of relativism.

The world of contrast and antithesis fades into grayness.
We are certain only of our uncertainty.

Despair conquers some, indifference others. Still other find "escape."
Alcohol—Sex—Drugs. Take a pill—blue for depression, red for anxiety, yellow for . . .

DR. AARON M. MARGALITH

ע"ה

RABBI LAZAR MARKELES

What is life?

The pessimist sees it as a progressive sequence of tragedies, culminating in death. Man's spirit is elevated by the demonic respites of happiness only to be crushed by the next calamity.

The optimist foolishly attempts to forget life's misfortunes. He is like the child; what is unpleasant is not real for him.

But . . .

life is both joy and sadness, accomplishment and failure. Its very essence is its richness and complexity. To fail to comprehend the totality of life is not to live—

and we shall live!

The years of preparation are completed. With the determination and confidence that arise out of an ever-deepening understanding of ourselves and of life —we enter the World.

We dedicate ourselves to give purpose and to give value to our lives . . .
